DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakagawa (JP 2001-234758). With reference to the machine translation provided herewith, the throttle control device executes under given conditions a throttle opening rate limitation (paragraphs [0030], [0031]) and prohibits the throttle opening rate limitation if an opening amount of the throttle valve is not changing across a predetermined range thereof (paragraph [0029]).

Allowable Subject Matter

Claims 8-13 and 15-20 are allowed.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later
